PLANT INSPECTION

by HESS GROUP

YOUR ADVANTAGES

- Status report on the individual components of your concrete block plant
- Quotation of recommended spare parts
- Recommendations for maintenance and settings
- Improved availability and effectiveness of the plant
- Reduction of unplanned downtimes
- Consistently high maintenance status of your concrete block making machine with regularly performed Smart*Check*

SUITABLE MACHINE TYPES

- RH 1500
- RH 2000
- other types on request

SCOPE OF SERVICES

- Detailed, comparable inspection report (your „system checkbook“)
  - Includes assessment of the degree of wear
  - Includes recommendations on where your maintenance should be intensified
  - Recommendations and quotations for the necessary spare and wear parts
- Duration of the Smart*Check*: approx. 2 days on site plus travel time of the HESS process engineer
- Not included: Further advice, recommendations for action and travel costs
